A WORD FROM THE PRESIDENT

2019 was special year for me because I was elected President of a great organization, Liberty International. For a libertarian organization, integrity is absolutely crucial. In Europe, where I come from, there are quite a few self-described pro-market organizations financed by the taxpay-

ers' money. There are also organizations which serve the particular interests of rich donors while at the same time declaring themselves independent. We see both cases as examples of inconsistency which can eventually impact the organization activity, thereby inevitably adjust-

ing it to the benefactors' demands. The priority for Liberty International, however remains Liberty: both economic and individual. We do not favor any constituency in the fight for resources and privileges. Ideological coherence and assertiveness in resisting the temptations of misuse and embezzlement are key features of Liberty International. While we work hard to spread the ideas of a free society, we never forget that our work is possible only with the help of our loyal individual donors. Thank you so much for the trust you have put in us!

Yours for Liberty,
JACEK SPENDEL

PRESIDENT

MISSION

Established in 1969, Liberty International is the oldest organization promoting libertarianism worldwide. Our purpose is to bring liberty to every corner of the world by sharing the philosophy and benefits of freedom, with special emphasis on educating newcomers.

We spread liberty and foster a global network of freedom's champions, empowering them to become change agents in their own countries.

We bring together the experience of our board members and the passion of our volunteers from all around the world. Our team works daily in the United States, Brasil, China, Poland, the United Kingdom and elsewhere making us truly international!

Our vision is simple: we want to make freedom a global matter. All of our activities aim at bringing philosophy of liberty to every person in the world, creating a family feel to the freedom movement.

Our special target is the next generation of liberty activists, so our activities focus on students and recent graduates. We see the world free of governmental overpower yet full of individual responsibility. We

seek a world that is freer, more open, and more individualized. If you cherish these same values, support us!

On June, 6-9th, Liberty International World Conference 2019 was hosted in Ulaanbaatar, Mongolia, by the local free markets oriented NGO Silk Road Foundation. Many of this year Conference's attendees found the event to be "the best Liberty Conference" in terms of organization, logistics, accommodation, extra activities, and, of course, the location. Indeed, not many participants were familiar with Mongolian culture and spirit before the conference. It is the largest contiguous land empire in the world's history and is becoming a cultural bridge between East and West nowadays.

The Mongolian friendliness and inspiring spirit of freedom was impressive! The intense and riveting lectures in conjunction with thoughtfully-organized entertainment activities made the Liberty International Conference 2019 an unforgettable and enduring experience.

Attending the Liberty International World Conference has been one of the most incredible experiences of my life. To share with wonderful liberty champions from all over the world and to have talked about what's going on in Venezuela in a country like Mongolia, which understands what the consequences of socialism are, is something I will never forget. Thanks for this unique experience!

Ayemen Fatima, India

The biggest stand out of LI world conferences is the diversity of topics it brings to the libertarian platform. The speaker line-up is so well thought of and impactful! I've learned so many different dynamics in the fight for freedom around the world. Thank you LI for such a brilliant conference!

PROJECT ARIZONA

Project Arizona is a semester-long program for young, outstanding leaders of the global freedom change. In Phoenix, these international emerging talents enjoy meaningful academic seminar at ASU, and fruitful networking. They gain a thorough understanding of the ideas of liberty and how to implement them when they return to their own nations.

Liberty International is the primary organizer of Project Arizona since 2019 doing it in partnership with Poland-based Freedom and Entrepreneurship Foundation. In 2019 we had six students from all around the world: Mexico, Venezuela, Po-

land, Ukraine, Russia, and Nepal. They interned in different companies, took part in 5 different seminars, and had as many as 21 networking meetings. Learn more about PA at projectarizona.us

Yuri Terekhov (PA 2019 Participant, Russia):

Project Arizona inspired me to develop a project of my own that I'm launching right now. This will be kind of an internal corporate university of my organization, the Free Russia Forum, the programs include political media marketing, fundraising, political analysis, cyber security and media literacy, journalism, and much more. It will mostly be open to talented young Russians who are active politically but feel constrained by the current political system.
